Veritas Academic Licensing Program Data Sheet

VERITAS

Streamlined access to the industry's leading information management solutions for academic organizations

Overview

The Veritas Academic Licensing Program (ALP) is designed to provide any eligible academic organization with a simple purchasing process to access our entire portfolio of Veritas software, appliances, maintenance/support and services (Offerings).

ALP purchases issue with a standard certificate- based terms and conditions, and can be made through any Certified Veritas Partner.

Organizations will need to submit proof of eligibility with their first order. Eligible organizations include:

- Government-approved public or private schools

- Vocational and correspondence schools

- Junior Colleges and Universities

- Scientific or technical institutions that maintain a full-time curriculum

- Education Consortia

- Libraries

A complete list of eligibility requirements can be found at
www.veritas.com/licensing/academic

Key Features and Benefits
o No minimum purchase
o Provides built in discounts specifically for academic organization
o Easy to buy via standard certificate-based terms and conditions
o Access to entire Veritas Offering
o Built in quantity tiered discounts within specific product families

Once eligibility has been established, customers can simply request a quote from their chosen Veritas Partner and submit their PO. Customers will receive a certificate directly from Veritas that confirms their order and indicates terms and conditions for the items purchased.

All customers will be assigned a unique identifier at the time of initial purchase. This identifier will be used to track additional purchases and can be used to effectively view, track and manage purchased offerings and maintenance/support renewals.
